

HYDRAFACIAL™ KERAVIVE™

Just like measuring a client's **skin health** by hydration, tone, and pore cleanliness;
you can measure a client's **scalp health** by hair texture, thickness and color.

CLIENT PROFILE	SCALP/HAIR CONDITION	KERAVIVE BENEFITS
 Full head of hair	• Healthy hair • Product buildup on hair and scalp • Damage from coloring, heat or hair extensions • Dry, flakey scalp	• Preventive and/or maintenance care to keep the scalp and hair healthy • Hydrates and nourishes scalp and hair follicles • Exfoliates product build-up and dandruff
 Slight thinning	• Damaged hair • Dry, flakey scalp • Thinning due to stress, hormones and irritants	• Cleanses scalp and hair follicles to remove dirt, oil and dead skin cells • Nourishes scalp and hair follicles with biomimetic growth factors and skin proteins
 Moderate to severe thinning	• Thinning due to stress, genetics, medications and/or medical conditions	• Complements and enhances hair remediation treatments • Supports keratin production and scalp microcirculation
 Partial to full baldness	• Partial to full baldness due to male or female-pattern baldness (heredity)	• Protects scalp • Hydrates scalp to ward off dryness and irritation associated with increased pollution • Nourishes scalp with biomimetic growth factors and skin proteins to strengthen the skin barrier

HydraFacial Keravive is for all scalp types!
